

## Table of Contents

Lead Author's Note and Acknowledgements	v
Preface	vi
<b>Chapter 1. Introduction and Background</b>	
1.1 Project Need and Description	1-1
1.2 Forestry Characteristics Among the 50 States	1-4
1.3 Characterizing State Forestry Organizations	1-5
1.31 State Forestry Organization Responsibilities	1-6
1.32 Organizational Placement of SFOs	1-7
1.33 General Resource Commitments in SFOs	1-8
1.4 Statewide Approaches to Geographic Information and GIT	1-9
1.4.1 State GI/GIT Coordination Entities	1-9
1.4.2 State GI/GIT Coordination Groups	1-11
1.4.3 Statewide GI/GIT Roles, Functionality and Level of Effort	1-12
1.5 Report Overview	1-16
<b>Chapter 2. Remote Sensing Resources for State Forestry Organizations</b>	
2.1 Aerial Photography	2-1
2.2 Airborne Electro – Optical Sensors	2-2
2.3 Satellite Imagery	2-3
2.3.1 U.S. Government	2-5
2.3.2 International Imagery Sources	2-7
2.3.3 Private Sector Imagery Sources	2-8
2.4 Ground Reference Data	2-8
2.4.1 SUNY-ESF Technical Investigation and Reference Work	2-9
2.4.2 Establishment of Baselines	2-9
2.4.3 Novel Methods and Imagery	2-10
2.4.4 Project Application Focus	2-10
<b>Chapter 3. Report Scope, Methodology and Caveats</b>	
3.1 Review of Related Information and Literature	3-1
3.2 Interaction with State Foresters and their Representatives	3-2
3.3 Development and Content of "State Profiles"	3-3
3.4 Data Classification, Synthesis and Analysis	3-5
<b>Chapter 4. Implementation of GIT in State Forestry Organizations</b>	
4.1 Growth of GIT Use in SFOs	4-1
4.2 Current GIT Presence in SFOs	4-3
4.3 Remote Sensing Usage in SFOs	4-5
4.4 Summary of Forestry GIT Applications	4-10

## Table of Contents

Chapter 5.	State Utilization of GIT by Application	
	5.1 Forest Health	5-1
	5.2 Fire and Emergencies	5-5
	5.3 Forest Characterization	5-13
	5.4 Land Cover and Landscape Ecology	5-15
	5.5 Private Lands	5-20
	5.6 State Lands	5-23
	5.7 Water, Watersheds and Wetlands	5-25
	5.8 Forest Assessment, Planning, Protection, Conservation and Acquisition	5-28
	5.9 Wildlife and Habitat	5-31
	5.10 Other Natural Resources	5-32
	5.11 Urban and Community Forestry	5-33
	5.12 Communications and Education	5-35
	5.13 Economic and Rural Development	5-38
	5.14 Recreation	5-38
Chapter 6.	Institutionalization of GI/GIT in State Forestry Organizations	
	6.1 Organizational Approaches	6-1
	6.2 GIT Staffing, Other Users, and Contacts	6-4
	6.3 External Relations	6-11
	6.4 GIT Policies, Issues, and Benefits	6-18
Chapter 7.	Conclusions and Opportunities	
	7.1 Summary of Report Findings	7-1
	7.2 External Coordination and Assistance Opportunities	7-2
	7.2.1 Federal Interagency GI/GIT Coordination	7-2
	7.2.2 NASA Approach to State Governments	7-3
	7.2.3 U.S. Forest Service Approach to Remote Sensing and Other GIT	7-5
	7.2.4 U.S. Environmental Protection Agency Information	7-6
	Integration Grants	
	7.3 Conclusions, Implications and Future Research Efforts	7-7
Bibliography		8-1
Appendix A.	List of Figures	A-1
Appendix B.	List of Project Participants in Profiles	B-1
Appendix C.	State Profiles	C-1
Appendix D.	U.S. Forest Service Remote Sensing Examples	D-1
